

CRUSADE AGAINST CANNED MEATS

Estimated Business of Whole Country Will Show a Loss of \$150,000,000.

CHARLES W. ARMOUR TALKS.

Says Agitation Will do Immense Amount of Damage—Prejudice Already Deep Rooted.

Kansas City, June 6.—The Journal will say it is estimated that the business done by the packing houses located here will suffer to the extent of \$10,000,000 as a result of the agitation in connection with the president's crusade against the canned meats. Representatives of the various plants seen yesterday agreed with the estimate in the telegraphic dispatches of yesterday that the business of the whole country would show a loss of at least \$150,000,000. Charles W. Armour said yesterday: "All this agitation is going to do an immense amount of damage and in some amount it will be the hardest to overcome the prejudice aroused. It will be a long time before the prejudice against American meats in England is allayed, and it will be still harder on the continent. The packing houses of the country have enough obstacles to contend with without increasing the number unjustly or mischievously. Every day's loss is how dearly it is to be paid. The world is divided into Germany and France. The world is divided into America and the rest of the world. It is not from any commercial hostility. "I do not think the estimate of \$150,000,000 loss to the packers in the whole country is exaggerated. That is the whole volume of business done, which I think is easily \$1,500,000,000 in all branches of the trade. We have complaints from England that the canned meat trade is decreasing."

DESTRUCTIVE STORM IN THE NORTHWEST.

St. Paul, Minn., June 6.—A special from North Branch, Minn., says a tornado passed about one-half mile east of there at 5 o'clock this afternoon, doing heavy damage and probably a number of lives were lost. The storm was reported to have destroyed at least three farm houses near here. Mrs. Myran and Benjamin Lagoo were badly injured. The village of Wyoming was also in the path of the storm. The houses of Mr. Puck at that place, was completely destroyed and some of the members of the family hurt. At the village of Stacey, eight miles south of here, Mrs. Baxter and a child were severely injured and the Swedish Lutheran church and a number of other buildings were destroyed. La Crosse, Wis., June 6.—One man, R. J. Halverson, was fatally hurt, five were seriously injured, and 10 buildings were leveled by a tornado near Stoddard, Wis., tonight. The rains swept over La Crosse. The others injured are: Mrs. Charles Scheck, hip broken. Carl Scheck, crushed by timber. William Jones, concussion of the head. Mrs. Louis Scheck and infant child, may die. Julius Granke, internal injuries.

A NEW DEPARTURE.

"Taking Time by The Forelock."

All observing people must have noticed a growing sentiment in this country in favor of using only put-up foods and medicines of known composition. It is not natural that one should have some interest in the composition of that which he expects to swallow, whether it be food, drink or medicine. This sentiment has resulted in the introduction in the legislatures of many of the States, as also in the Congress of the United States, bills providing for the publication of formula or ingredients on wrappers and labels of medicines and foods put up for general consumption. Recognizing this growing disposition on the part of the public generally, and satisfied that the fullest publicity can only add to the well-earned reputation of his proprietary medicines, Dr. R. V. Pierce, Buffalo, N. Y., has taken time by the forelock, as it were, and is publishing broadcast, and on each bottle wrapper, a full and complete list of all the ingredients entering into his medicines, "Golden Medical Discovery," the popular liver invigorator, stomach tonic, blood purifier and general regulator; also of his "Favorite Prescription" for weak, over-worked, broken-down, debilitated, nervous, invalid women. This bold and outspoken movement on the part of Dr. Pierce, has by showing exactly what his well-known medicines are composed of, completely disarmed all harping critics who have heretofore unjustly attacked them. A state pamphlet has been compiled from the standard medical authorities of all the several schools of practice, showing the strongest endorsements by leading medical writers of the several ingredients which enter into Doctor Pierce's medicines and recommending them as ingredients for the cure of the diseases for which Dr. Pierce's medicines are advised. A copy of this little booklet is mailed free to any one desiring to learn more concerning the valuable, reliable, medicinal plants which enter into the composition of Dr. Pierce's medicines. A request by postal card to letter, addressed to Dr. R. V. Pierce, Buffalo, N. Y., will bring this little booklet by return post. It tells exactly what ingredients are used in the making of Dr. Pierce's famous medicines. This striking departure of Dr. Pierce from the usual course pursued by the manufacturers of proprietary medicines, at once takes his medicines out of the class generally known as "patent" or secret medicines, neither of which term is at all applicable to them, as their formulae now appear on the wrapper of every bottle leaving the great laboratory at Buffalo, N. Y. It places them in a class all by themselves. Neither of them contains any alcohol, which fact alone should cause them to be classed all by themselves and as entirely harmless vegetable extracts, made and preserved by the use of glycerine, and not with the usually employed strong alcohol, which works so much injury, especially in cases where treatment, even though of the best, must be continued for considerable periods of time, in order to make the cure permanent. Many years ago, Dr. Pierce found that chemically pure glycerine, of proper strength, was far better than

TORTURED BY ITCHING SCALP

Eczema Broke Out Also on Hands and Limbs—Suffering Intense—Doctors Said Too Old to Be Cured—An Old Soldier of 80 Years Declares:

"CUTICURA TREATMENT IS A BLESSING"

"At all times and to all people I am willing to testify to the merits of Cuticura. It saved me from worse than the tortures of hell, about the year 1900, with itching on my scalp and temples, and afterwards it commenced to break out on my hands. Then it broke out on my limbs. I was advised to use salt and water, which I did, to no effect. I then went to a Surgeon, who commenced treating me with a wash of borax. This treatment did me no good, but rather aggravated the disease. I then told him I would go and see a physician in Erie. The reply was that I could go anywhere, but a case of eczema like mine could not be cured; it was too old. I went to an eminent doctor in the city of Erie and treated with him for six months, with little results. I had read of the Cuticura Remedies often, I was strongly tempted to give them a trial, so I sent for the Cuticura Soap, Ointment, and Resolvent and continued taking the Resolvent until I had taken six bottles, stopping it to take the Pills. I was now getting better. I took two baths a day, and at night I let the lather of the Soap dry on. I used the Ointment with great effect after washing in warm water, to stop the itching at once. I am now cured. "The Cuticura treatment is a blessing and should be used by every one who has itching of the skin. I can't say any more, and thank God that He has given the world such a curative. You can use this letter as you please. A very much benefited man, Wm. H. Gray, 3303 Mt. Vernon St., Philadelphia, Pa., August 2, 1905."

Complete External and Internal Treatment for every Skin Disease. Cuticura Soap, Ointment, and Resolvent. Each bottle 25c. Six bottles \$1.50. Sent by mail on receipt of \$1.50. No charge for postage. Write to: Cuticura Remedies, P. O. Box 108, Lowell, Mass. "How to Cure Itching Scalp."

Several others are more or less seriously hurt. The hurricane centered apparently one and one-half miles east of Stoddard, Vernon county. It passed up Coon valley and Mormon colonies, striking Stoddard and Brinkman most heavily. Telephone communication is crippled and telegraph wires are down to the south. In La Crosse there was much damage, though no person was injured. Washouts are reported on the railroads in this vicinity. A windstorm also did damage at Leon, Wis. A bridge on the Chicago, Burlington & Quincy railroad near Stoddard was carried out, and a Burlington passenger train, carrying 200 passengers, was flagged at the brink of the gap by a farmer named Miller and many lives were saved. Many farms are reported to be completely devastated.

KILLED IN COLLISION.

Atlanta, Ga., June 6.—An Atlanta and West Point excursion train was run into by a Central of Georgia passenger train at the south end of the terminal station here tonight. Roy Cook of Atlanta was killed and 10 or more others were injured, some of them seriously. The Central of Georgia engineer claims no cautionary signals were given him.

From "Organic Medicines," by Grover Coe, M. D., of New York, we extract the following concerning Hydrastis (Golden Seal root), which enters largely, as we have already stated, into the composition of both "Golden Medical Discovery" and "Favorite Prescription." Dr. Coe says: "Hydrastis exercises an especial influence over mucous surfaces. Its action in this respect is so manifest that the indications for its employment cannot be mistaken. (Hence the efficiency of "Golden Medical Discovery," which is rich in Golden Seal root, in all catarrhal affections, no matter in what part of the system located.) Upon the liver it acts with equal certainty and efficiency. As a cholagogue (liver invigorator), it has few equals. Also in scrofula, glandular diseases generally, cutaneous eruptions, indigestion, debility, diarrhoea, and constipation." Doctor Coe continues: "Hydrastis (Golden Seal root), has been successfully employed in the cure of leucorrhoea. It is of singular efficacy when that complaint is complicated with hepatic (liver) aberration (derangement). Hydrastis is also of inestimable value in the treatment of chronic derangements of the liver. It seems to exercise an especial influence over the portal vein and hepatic (liver) structure generally, resolving (dissolving) biliary deposits, removing obstructions, promoting secretion, and giving tone to the various functions. It is eminently cholagogue (liver accelerator), and may be relied upon with confidence for the relief of hepatic (liver) torpor. It promotes digestion and assimilation, obviates constipation, and gives tone to the depurating (cleansing) functions generally." Dr. Coe further says: "We would here add that our experience has demonstrated Hydrastis to be a valuable remedy in bronchitis, laryngitis, and other affections of the respiratory organs." After reading the foregoing extracts who can doubt the great efficacy, in a long list of diseases, of "Golden Medical Discovery," one of the principal ingredients of which is Golden Seal root (Hydrastis)? And this applies with equal force to Doctor Pierce's Favorite Prescription for weak, worn-out, over-worked, nervous, invalid women. Dr. Pierce's Pleasant Pellets are composed largely of concentrated principles extracted from Mandrake root. They regulate and invigorate the stomach, liver and bowels. One or two little sugar-coated "Pellets" a dose.

BILL TO PREVENT RACE SUICIDE

Boys Under Twenty-Four Forbidden to Court Any Young Woman.

MUST COURT IN GOOD FAITH.

All Issue of Marriage to be Raised And Educated at Expense of Louisiana.

Chicago, June 7.—A dispatch to the Tribune from New Orleans says: T. Spence Smith of Rapides yesterday introduced into the state legislature a bill to regulate marriage contracts and prevent race suicide. The bill only applies to whites and provides:

It shall be unlawful for any young man to attempt to court any young woman before he is 24 years of age.

Before making such attempt, he shall inform the parents or guardian of the woman he proposes to court of his intention to do so. He shall also make affidavit to a justice of the peace that his courtship will be in good faith and for the purpose of trying to convince the young woman that it will be profitable for her to marry him. It shall be unlawful for widowers over the age of 40 years to attempt to court any woman under the age of 18, beyond the confines of the parish of their residence. After the passage of the act all children born to legally married people in this state shall be raised and educated at public expense. All boy children shall be sent to the state university at Baton Rouge and all girls to the state normal school at Natchitoches. An appropriation of \$1,500,000 to carry out this education feature is provided for in the bill.

REV. JAMES R. WYLIE.

Self-Confessed Bigamist Sentenced to a Year's Imprisonment.

Los Angeles Cal., June 6.—Rev. James R. Wylie, self-confessed bigamist, was sentenced by Judge Smith today to pay a fine of \$5, and to be imprisoned in Folsom for one year. The district attorney's office represented that the crime was not an aggravated case and dropped prosecution against the clergyman's second wife, a Mrs. Green. Wylie was a minister of the Methodist Episcopal church in New York, where he married his first wife 15 years ago. Last year the Wylies moved to a mining camp near Phoenix, Ariz., and were visited by Mrs. Fannie M. Green of New York. The clergyman sent his wife and an adopted child to relatives in Council Bluffs, Ia., and during their absence married the Green woman in Los Angeles last August. The first wife learned of the second marriage and swore to a complaint charging the contracting parties with bigamy. The clergyman and his second wife were en route to Ensenada when intercepted by the police.

UNITED BREWERS' ASSOCIATION.

Indianapolis, June 6.—The forty-third national convention of the United Brewers' association met today at the Claypool hotel. Over 200 delegates are present, representing nearly every state in the Union and estimated capital of \$500,000. Albert Lieber, on behalf of the Indianapolis brewers, welcomed the delegates. He said: "Considering that the use of fermented beverages is as old as mankind, that fermented decoctions of cereals have been popular among the Teutonic nations for a thousand years, and that the preservation of a custom or habit through all the stages of development and progress of a nation from barbarism to civilization permits the conclusion that such custom or habit satisfies an actual or irrepressible desire, so that its eradication is impossible. I am, indeed, of the opinion that we are entitled to thanks for the perfection of the art of brewing, and that there would be more wisdom and practical prudence in legislation favoring the popularization of beer, than in legislation incited by the unjustified prejudices of the overzealous temperance advocate."

The production of beer in the United States has grown from a little over six million barrels in 1870 to probably more than fifty millions in the present year. It has grown nearly four times as fast as the population. If we were not furnishing the people a good, pure and healthy product, the remarkable increase would have been impossible." The report of the board of trustees was read, as follows: "There can be no doubt that the agitation of the anti-saloon league has misled many well-meaning lawmakers and electors, and that by its great injury has been and more may be inflicted upon our industry, but we are confident that it will not be long before the electors, realizing the ultimate object of the league, will deal with it as they have dealt with prohibition." The vigilance committee reported that there can be no doubt that the anti-saloon agitation will grow in force and that it behooves us to persevere. In our efforts to convince the people of the United States that in their essential effects the objects of the league do no differ in the slightest from those of prohibition."

The publication committee's report, discussed prohibition at length, and said: "The ultimate triumph of the principle of personal liberty in our public and social life will mark the beginning of a new era in this country—an era of larger freedom, of wider and more beneficent humanity, of more real fraternity, of greater prosperity, content and happiness, both for the community and the individual."

CANAL SUPPLIES.

Purchases Restricted to Articles of Domestic Manufacture. Washington, June 6.—By a vote of 8 to 2, the three being Democrats and the eight Republicans, the house committee on ways and means today authorized a favorable report on the Senate resolution restricting purchases for the Panama canal to articles of domestic manufacture and from the lowest bidder, "unless the president shall in any case deem the bids and tenders therefore extortionate or unreasonable."

OSCAR LYDIC ARRESTED.

Helena, Mont., June 6.—Oscar Lydic, aged 21, alleged to be wanted in Pennsylvania for the theft in January, 1905,

Cream Potatoes

"My favorite dish," you exclaim. Well, there's a treat in store for you, if

is used in its preparation. A rich butter-fat milk—evaporated and sterilized, nothing added, and only the water and disease germs squeezed out. Try this recipe, and you'll not patronize the milkman much longer. Carnation Cream is sold by all grocers.

Two-lobed potatoes, a tablespoonful of butter, a tablespoonful of milk, salt and pepper. Cut the potatoes into small squares, wash butter, add the milk and salt and pepper. When hot, stir the milk and butter into the potatoes. Season and serve.

of two registered packages containing \$198, while working as a mail carrier, was arrested today at Cooper's the camp in the West Gallatin basin, says a special from Bozeman. Postoffice Inspector McRae and Deputy United States Marshal Young made the arrest and will take Lydic to Helena pending action by the Lydic State court.

GRADUALLY WITHDRAWING TROOPS FROM SAN FRANCISCO

San Francisco, June 6.—The military authorities are gradually withdrawing all of the government forces from the city and within a few weeks San Francisco will be entirely under the protection of the regular police force, assisted by the large number of specials which have been added to the list since the fire. It has been the plan of those who have had charge of the city's protection to have the troops withdrawn gradually and for the last few weeks the companies have been recalled, one at a time, and sent back to their proper stations, until now only a few regiments remain to go guard duty here which do not properly belong to posts about the bay.

"DRUNKENNESS"

CIGARETTE AND TOBACCO HABITS CURED BY TRIB. Mr. Cliff Hockett, 1023 Fourth Ave., Seattle Wash., writes: "I took Trib 1 had been a hard tobacco user for twenty years. I have taken three other so-called cures, but never received a cure. Trib has completely cured me and I have no desire for tobacco. Do not believe I could use either liquor or tobacco if I wanted to. Before I took Trib 1 had a bad stomach, but now I feel like I could digest most anything. Each package contains a full four weeks' treatment and a cure. Trib cures the liquor and tobacco habits, 'cures' bad 'after effects' and possesses every merit claimed for it. We give an absolute guarantee with every treatment—'It's our way of doing business.'"

draws' Protestant Episcopal church of this city, who was found guilty of heresy after a trial by an ecclesiastical court at Havana last month, today filed an appeal from the findings of the court.

FOR ATTEMPTED BRIBERY.

Warrant Issued for Arrest of Secy. of State of Wisconsin.

Madison, Wis., June 6.—A warrant for the arrest of Secy. of State Walter E. Houser, charging attempted bribery, was issued today by Judge Donovan of the municipal court. The complaint is signed by State Insurance Commissioner Host. Trouble arose out of Insurance Commissioner Host's charge that Houser in 1903 offered to give \$2,000 to the Republican campaign fund in order to render a decision favorable to the Equitable Life Assurance society in the case involving the distribution of dividends.

GOV. SPARKS TO MINERS.

Tells Them Any Violence Will Quickly Be Checked.

Goldfield, Nev., June 6.—Gov. Sparks and Atty. Gen. Sweeney came here today to learn what action had been taken last night by the miners' union in the matter of the proposed strike against the Western Union Telegraph company. The strike had been planned by the officers of the Industrial Workers of the World, and threatened to involve all of the union men here. The miners' union refused to countenance the proposed strike and this action virtually disposed of the threatened trouble. The Western Union is now conducting business as usual with its old force. Gov. Sparks spoke very plainly to the laborers and said that any violence would be quickly checked by the national and state governments.

ANCIENT ROME

is now merely a memory of the past. Richard's Snow Unimpaired is the family heirloom of the twentieth century. A positive cure for Rheumatism, Burns, Cuts, Sprains, Neuralgia, etc. Mr. C. H. Runyon, Stambury, Mo., writes: "I have used Snow Liniment for Rheumatism and all pain. I can't say enough in its praise. Sold by Z. C. M. I. Drug Dept. 112 and 141 South Main Street."

Don't buy MOINT'S Purify Pickles for HOME INDUSTRY sake, but buy them for goodness sake.
